AFNOR Option Card (IRIG-B 127)- Netsilon

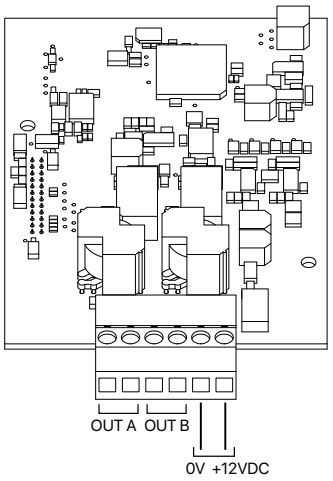

Bodet
www.bodet-time.com

MADE IN FRANCE

DESCRIPTION

- The AFNOR option card enables wired time distribution in accordance with the AFNOR / IRIG-B 127 standard.
- The two AFNOR outputs can be configured via the time server's web interface and can provide different times (a separate time zone can be selected for each output).
- The option card features a DC power output.
- Wireless time distribution is also possible by connecting a dedicated DHF transmitter to the option card.
- Up to four option cards can be installed in a single time server.

COMPLIANCE

- Directives: LVD 2014/35/EU, EMC 2014/30/EU, RoHS 2015/863/EU.

TECHNICAL FEATURES

Electrical features

- Number of outputs..... 2 independent outputs (A/B).
- DHF power supply..... 0-12V⎓, 0,5A.
